If Mr. Stergue or others object when you go on Harco site, you should not attempt to stay. Under the NCP (regulations under the statute) 40 CFR 300.400(d)(4)(v), "Force shall not be used to compel compliance with an order." I suggest that you do not attempt to negotiate with Stergue then, but that you let me negotiate with him (or Mr. Burke) based on the administrative order we have issued. If that fails, we can seek an access order from the federal court in CT under the statute, CERCLA 104(e)(5)(B). Thanks and good luck!
